- Assessed Value IS NOT THE SAME THING AS "Real Estate Market Value" ... Assessed Value is determined by County Assessor while the sellable Market Value of your property is determined by the open real estate marketplace. Real Estate Market Value plays no role in determining taxable value or property tax dollars owed. ONLY the Assessed Value should be used to calculate property tax impacts. Ag land & buildings are not assessed at market value. Residental & Commercial Assessed Values may not reflect the current market value.
- \ Homestead Credit may vary from County to County in certain years. Your tax bill likely does not show the \$4,850 amount, but instead reflects the dollar value of the tax credit calculated on that amount vs. your total consolidated tax levy rate for your properties location
- Farm Buildings Are Assessed with the Agriculture Property ROLLBACK
- Ag Property will pay the school levy, but will pay a different CITY levy than Residential Property if the land is within City limits.
- Within CITY limits Ag Property pays the Ag Levy (likely near the maximum rate of \$3.00375) and NOT the City Levy....but, does still pay all school levies, including PPEL and Debt Service. The farm home pays the entire levy just as any other home within City limits, except the City levy is replaced with the County levy.
